PROJECTS

HR Dashboard
📍 Bangalore, India
🔗 first-project-seven-sepia.vercel.app

- An **HR Dashboard** provides a centralized platform for managing employee-related activities efficiently. It includes **employee management** for adding, editing, and maintaining records, along with **attendance tracking** to monitor working hours.
- The **leave management** system allows employees to request leaves and managers to approve them seamlessly.
- The dashboard also features **performance tracking** for employee evaluations, **recruitment management** to oversee hiring processes, and **task & project management** for assigning and monitoring work.
- Additionally, **user roles & permissions** ensure secure access control, while **notifications & alerts** keep employees updated on HR activities.

Rewardify Vendor Application
📍 Bangalore, India
🔗 rewardify-taupe.vercel.app

- Developed a **Vendor App** to streamline store operations, including **product management**, **order tracking**, and **profile settings**.
- It features **real-time order tracking**, enabling vendors to monitor order status, process shipments, and handle returns efficiently.
- The app allows vendors to **add, edit, and manage products** with detailed descriptions and pricing.
- The **profile management** section includes business details, payment settings, and notifications for important updates.
- Additionally, the app supports **inventory management**, **sales analytics**, and **customer communication tools**, providing a seamless experience for vendors to manage their online store.
